Subject: RE: Renewal of Certificate of Compliance for the England's Stove 25-CB120, 55-SHPCB120, 55-TRPCB120
Attachments: EPA Recertification Requests for cb120 09272021.docx

Please see the attached revised letter. I was following up because I sent this yesterday and did not get notification that you received it. Thank you for your assistance.

Regards,

Chris

Subject: Renewal of Certificate of Compliance for the England's Stove 25-CB120, 55-SHPCB120, 55-TRPCB120
Importance: High

Mr. Wray/Mr. Terrell,

Thank you for your email requesting the Agency renew your Certificate of Compliance for the above-referenced models. Upon reviewing the submitted documentation, I noticed that your letter is missing a statement asking the Agency to waive the recertification test requirements. See below:

The manufacturer of an affected wood heater must apply to the Administrator for potential recertification by submitting the material specified in paragraph (b) and following the procedures specified in paragraph (f) of this section, or by affirming in writing that the change will not cause wood heaters in the model line to exceed applicable emission limits and requesting a potential waiver from certification testing. The application for recertification must be reviewed and approved by the contracted third-party certifier and a copy of the review and approval must be included. The Administrator may waive this requirement upon written request by the manufacturer, if the manufacturer presents adequate rationale and the Administrator determines that the change may not reasonably be anticipated to cause wood heaters in the model line to exceed the applicable emission limits.

Please resubmit your renewal letter as noted above.

In addition, please note that before we can act on your renewal request, we must conduct a full review of the test report. If we identify test report problems or irregularities, England's will be notified. Any deficiency found on the test report must be sufficiently addressed by England's before renewing the Certificate of Compliance. **Given that the Certificate of Compliance will expire on October 27, 2021, England's will not be permitted to advertise for sale, offer, or sell an affected wood heater after such date unless you receive an updated Certificate of Compliance.** For future reference, please submit a renewal request 90 days before its expiration. If you have any questions, please let me know.

Subject: FW: Brian Ziegler Intertek shared the folder "England's Stove 25-CB120 Update" with you.

Dr Sanchez,

I believe this is all the stuff that is needed to recertify our Wood Pellet Heater, 25-CB120, we were waiting on the information from Intertek and received that today, if there is anything missing or still needed please reach out to me asap so I can get that to me as I know we only have a couple weeks.

I apologize for the lateness of this and hope that you can get it done in a reasonable time and before the deadline

Thanks

John Wray
